

# KARSAN RAMJI AND SONS LTD

## INTRODUCTION

Karsan Ramji, is one of the pioneers in the ballast industry in Kenya having five quarries countrywide.

In 2015, Karsan Ramji also began production of Cement from their 700t/day plant located in Athi River.

Managing the remote locations and future growth plans required a robust ERP that would cater to their diverse increasing business needs. SAP Business One from ACeTeK got the green light as they had the local technical skills to customize the System to suite their requirements.

## THE CHALLENGE

- ✓ Limited reporting, limited functionality
- ✓ Systems in place not scalable for projected growth

## KEY BENEFITS

- ✓ Better purchase planning and stock management
- ✓ Able to manage distribution and production costs of different types of businesses in one integrated system
- ✓ Gained visibility into mining assets and maximized uptime to maximize return on investment
- ✓ Remote sites are monitored real-time and weight-bridge integration has ensured losses have been minimised
- ✓ Management by exception giving key personnel alerts on when they need to attend to matter

## COMPANY KEY FACTS

**Industry :** Mining and Building Materials

**Sector :** Mining, Manufacturing and Distribution

**Previous Solution :** Tally ERP

“SAP will be a vital ally as we move forward, providing us with a peerless digital platform ... that enables end-to-end visibility, drives sustainable business practices and dramatically enhances acuity for swifter decision-making.”

Kishor Varsani - Director
