

# MINERAL ENTERPRISES LTD

## INTRODUCTION

Established in 1981, is one of the pioneers in the production of industrial and agricultural minerals.

MEL products include terrazzo chips, stock feed / poultry lime, kaolin gypsum to the superfine grades of calcium carbonate and dolomitic lime manufactured in the state of the art milling plant.

MEL evaluated a range of software applications that would enable it to manage all business processes. Key criteria was that the solution be proven in the market, was supported by a company with a solid reputation, and was flexible enough to handle a range of information. ACeTeK and SAP Business One checked all the boxes.

## THE CHALLENGE

- ✓ Systems in place not scalable for projected growth
- ✓ Limited reporting, limited functionality

## KEY BENEFITS

- ✓ Better purchase planning had reduced stores inventory
- ✓ Gained visibility into mining assets and maximized uptime to maximize return on investment
- ✓ Managed and optimized the complex supply chain
- ✓ Management by exception giving key personnel alerts on when they need to attend to matters
- ✓ Being able to manage distribution and production costs in one integrated system
