

MALPLAST INDUSTRIES LTD

INTRODUCTION

Established in 2004, Malplast has grown into one of the key plastic packaging company in East and Central Africa, and now enjoys a bigger percentage share of the market in the production of P.E.T and HDPE Bottles packaging in both alcoholic and non alcoholic packaging across Sub Saharan Africa.

Malplast is a leading manufacturer of Rigid Plastic Packaging used in the pharmaceutical, beverage, edible oil, paint, cosmetics, lubricants, industrial & consumer chemicals, and power industries.

In line with the growth plans, there was a strong need to introduce system driven processes and controls. ACEteK and SAP Business One were the preferred option due to their comprehensive solution.

THE CHALLENGE

- ✓ Limited reporting, limited functionality
- ✓ Human driven controls and processes

KEY BENEFITS

- ✓ Increased control over business operations
- ✓ Improved stock control
- ✓ Increased customer credit control
- ✓ Real-time insight into business data which was key to making informed decisions
- ✓ Less reliance on finance department
- ✓ Increased reporting capabilities

COMPANY KEY FACTS

Industry : Plastic Processing

Sector : Manufacturing and Distribution

Previous Solution : Tally ERP

“The SAP Business One solution we implemented has enabled us to focus our attention on our core strategies”

“As a result of a professional project and implementation team we were able to recover the costs of the implementation within one year”

Darshil Shah – Director
