SAP BUSINESS ONE BUILDS CONTROL AND CONVENIENCE INTO BUSINESSES

The largest building material supplier in East Africa, ASL Limited, turned to ACETeK to help implement SAP Business One and improve their business processes. With better control of stock and customizable reports the financial side of their operations has greatly improved.

Objectives

- ASL Limited's previous system was not up to standard and didn't have the functionalities that were required.
- Service delivery was slow and inefficient.
- New software was needed that would better match ASL Limited's business needs of today and the future.

Why SAP and ACETeK

- SAP Business One came highly recommended by other companies in ASL Limited's industry.
- ACETeK had successfully implemented SAP Business One into similar companies.
- The ACETeK team communicated well with ASL Limited and are flexible, professional and always delivered on time.

Benefits

- ASL Limited now has better control over stock.
- Customizing reports is both fast and easy.
- The finance sector of ASL Limited has improved thanks to instant access of accurate data.
- SAP add-ons have been hugely beneficial allowing ASL Limited to scale their business accordingly without changing software.
- Data security is better since implementation of SAP Business One.
