

“ SAP Business One has given us the assurance of quality and reliability.”

Laval Wong – Managing Director of Chantier De Plaisance

IMPROVED CONTROL AND ACCURACY

made possible with SAP Business One

SOLID, HIGH-QUALITY PROCESSES WITH SAP BUSINESS ONE

Chantier De Plaisance is a wood supplier in Mauritius offering reliable and efficient services. Looking for the ability to tailor-make reports, Chantier De Plaisance requested ACETeK's help with implementing SAP Business One. They now have the control and accuracy they previously lacked.

Objectives

- Chantier De Plaisance wanted better control over internal processes.
- There was a need for accurate data and price calculations.
- The existing security against fraud was not strong enough.
- An ERP was required that could provide management with the ability to tailor-make reports and support future growth.

Why SAP and ACETeK

- SAP Business One is a globally recognized and highly recommended system and Chantier De Plaisance found it was the best ERP for the long-term.
- ACETeK was incredibly helpful at removing all present issues and ensuring everything runs smoothly.

Benefits

- Since implementation, all reports can now be tailor-

made according to specific requirements.

- Reports are fast and easy to produce, allowing management to make business decisions faster.
- Time has been saved across all operations thanks to SAP Business One's internal controls.
- The approval feature ensures a greater level of control.
- Real-time data ensures prices and volume inventory are accurately calculated.
