

fenix intl | A company of ENGIE

## FULLY EMPOWERED

made possible with SAP Business One and ACETeK

“SAP Business One is a strong ERP system that has taken our finance operations to the next level.”

Whitney Deason - Global Finance Director at Fenix International Inc.

## ENERGIZING CUSTOMERS AND STAFF WITH SAP BUSINESS ONE

Producers of ultra-affordable mobile enabled solar solutions that empower more than 1.3 billion people living off-grid, Fenix International, needed a more powerful ERP solution to continue improving their customers' quality of life. Working with ACETeK to implement SAP Business One, Fenix International now has complete control of their company.

### Objectives

- Fenix International had specific requirements that weren't being met by their previous software.
- A multi-currency functionality was required.
- A new ERP platform was needed to simplify and unify all internal business processes.

### Why SAP and ACETeK

- SAP Business One offered an ERP solution that could grow with businesses.
- Fenix International conducted many interviews and found ACETeK to be the best partner.
- ACETeK quickly provides support whenever it is needed.

### Benefits

- Since implementation, Fenix International now has a multi-currency functionality.
- SAP Business One provides the

ability to make inter-company transactions.

- Invoices are seamlessly created and delivered to the relevant companies.
- Business processes have improved, and all branches are seamlessly controlled through a single consolidated view.
- Unrelated duties can be segregated to improve efficiency.
- Business control has improved, and authorization is better.
- SAP Business One provides space for growth.
