SAP BUSINESS ONE KEEPS BUSINESSES IN GOOD HEALTH

Distributor of medical supplies, Nairobi Enterprises, worked with ACEteK to deploy SAP Business One seamlessly into their operations. By reducing errors and improving all processes, Nairobi Enterprises is now one of the fastest growing medical and pharmaceutical companies in the region.

Objectives

- Nairobi Enterprises' previous software could not provide management with the reports and alerts they required when they needed them.
- New software was necessary to connect three branches of Nairobi Enterprises seamlessly to the main branch.

Why SAP and ACEteK

- SAP Business One could solve all of Nairobi Enterprises' legacy problems.
- ACEteK was very efficient, making the transition smooth and ensuring the support team was available throughout the process, 24/7.

Benefits

- SAP Business One has provided Nairobi Enterprises with the perfect solution for accounting, stock inventory and daily reports.

- The Nairobi Enterprises team can now access data and approve invoices from anywhere.
- All branches and departments are seamlessly working together.
- Invaluable real time alerts and reports are highlighted in convenient dashboards.
- Landed costs and customer authorizations are easy to process.
