

**END-TO-END COVERAGE**  
thanks to SAP Business One

“SAP Business One is a business enabler.”

Paul Obiero – C.O.O of Nice House of Plastics

## MOLDING SUCCESS INTO BUSINESSES WITH SAP BUSINESS ONE

When faced with productivity challenges, manufacturer of household and industrial plastic items, Nice House of Plastics, turned to ACEteK and SAP Business One for a solution. As a result, they now have a streamlined system in place that provides end-to-end business coverage.

### Objectives

- Nice House of Plastics previously had a multitude of systems in place.
- Several business requirements were not being met.
- New software was required that was more suitable for a SME and could manage operations more efficiently.

### Why SAP and ACEteK

- SAP Business One had the coverage Nice House of Plastics needed and could solve all existing challenges.
- ACEteK was a local partner who quickly solved all problems during implementation, offers invaluable guidance and has a great support model in place.

### Benefits

- Since implementation, Nice House of Plastics now has end-to-end business coverage.

- The reporting process has drastically improved.
- Reports are customizable and received in real time, so management can make business decisions faster.
- Staff productivity has improved across all departments.
- Tasks requiring urgent attention are prioritized thanks to dashboard alerts.
- SAP Business One allows for specific customizations, saving time.
