

**POWER**

“SAP Business One gives us the flexibility we need and the ability to keep growing our business.”

Esther Mwangi – Finance and Procurement Manager at Power Group Technologies Ltd

**SEAMLESS REMOTE WORKING**

powered by SAP Business One

**BUSINESSES ARE EMPOWERED WITH EFFICIENCY THANKS TO SAP BUSINESS ONE**

Installers of engineering solutions, Power Group Technologies, turned to ACETeK and SAP Business One to patch up issues that previously existed. They now enjoy real-time data visibility, which helps management make more informed business decisions.

**Objectives**

- Power Group Technologies previously had no ERP system in place.
- A lot of inconveniences could have been fixed with an ERP.
- New software was required that could offer flexibility and convenience.

**Why SAP and ACETeK**

- SAP Business One is affordable and user-friendly and matched Power Group Technologies' business needs.
- ACETeK is a flexible and supportive partner who demonstrated how SAP Business One worked, paying careful consideration to Power Group Technologies' needs.

**Benefits**

- Since the implementation, operational costs have decreased.
- Operations are now faster and more efficient.
- Real-time reports allow management to make real-time decisions quickly.
- Add-ons have further improved business operations.
- Cloud-based data has made remote working possible during the Covid-19 lockdown.
