

**PRODUCTION OPTIMIZATION**  
made possible thanks to SAP Business One

“ We call it 'SAP Best One!'”

N. Krithivasan - Finance Controller  
at Rai Cement

**SAP BUSINESS ONE CEMENTS BUSINESS EFFICIENCY**

Rai Cement, a cement manufacturer in Kenya, needed a reliable and integrated system to help them make better decisions. With ACETeK's support, SAP Business One was implemented to increase efficiency across all areas of their business.

**Objectives**

- Rai Cement was experiencing multiple issues with their previous system.
- Processes were slow and cumbersome.
- An integrated ERP was required that could put everything online.

**Why SAP and ACETeK**

- SAP Business One is a system that is easy to implement, understand, and maintain.
- ACETeK has a great reputation in Kenya, understood all Rai Cement's initial requirements and always delivers on time.

**Benefits**

- Since implementation, important data is no longer disorientated.
- Everything is consolidated on a centralized platform, enhancing business control.

- Both finance and procurement have improved thanks to accurate, real-time data.
- Warehouse management is better resulting in improved customer service.
- Control over inventory has increased.
- All information is now online and always accessible, so management can make important business decisions fast, from anywhere.
