

“SAP Business One is an easy and stress-free system that has made auditing very simple.”

Gurkirat Singh – Accounts and Financial Department at Rock Plant (K) Ltd

CONSOLIDATED OPERATIONS

thanks to SAP Business One

BUSINESSES CAN MOVE MOUNTAINS WITH SAP BUSINESS ONE

Official Hitachi construction machinery dealership in East Africa, Rock Plant, was faced with consolidation issues. Turning to ACEteK and SAP Business One, they can now communicate more effectively, design reports according to specific requirements, and quickly address important internal affairs.

Objectives

- Rock Plant's previous system was not able to provide management with the services required.
- Accounting needed to improve.
- A new integrated system was required that could provide many services and link multiple departments together seamlessly.

Why SAP and ACEteK

- SAP Business One met all Rock Plant's requirements and could improve business processes.
- ACEteK made all functionalities that were needed a possibility.
- Fast and valuable support is always guaranteed from the ACEteK team.

Benefits

- Since implementation, all departments have been consolidated.

- Reports can now be designed according to what is needed by management.

The reporting process is faster and more advanced.

- Important figures are available in real-time and easily linked together.
- Alerts are received for important matters so they can be dealt with quickly.
- SAP Business One's features have improved business efficiency.
