

GROWTH AND DIVERSIFICATION

is possible with SAP Business One

“SAP Business One has changed my life! It has given my business independence, accessibility and versatility.”

Barbara Ah-Sue – Chief Executive Officer at Sotramon Limitée

ENGINEERING COMPLETE CONTROL WITH SAP BUSINESS ONE

Sotramon Limitée works in the engineering services industry in Mauritius. Working with ACEteK, they implemented SAP Business One to improve organization and control within their business.

Objectives

- Sotramon Limitée previously only had access to basic accounting information.
- Processes were manual as the system did not allow for stock, analysis or up to date information.
- New software was required that could automate processes across all departments.

Why SAP and ACEteK

- SAP Business One provided attractive, easy to create reports.
- ACEteK gave a fantastic presentation to Sotramon Limitée highlighting what they were missing from their existing software.
- ACEteK implemented SAP Business One seamlessly and are always available to help with any request.

Benefits

- SAP Business One has given Sotramon Limitée the ability to organize their processes.
- Management has more control over operations and is less reliant upon manual processes.
- Information is now always up to date and reports are easily accessible and customizable.
- Sales have improved.
- Sotramon Limitée has grown and saved in expenses.
