SAVING TIME AND EFFORT

with SAP Business One and ACEteK

GAINING ILLUMINATING INSIGHTS WITH SAP BUSINESS ONE

Providers of quality lighting products, Vishelectric Ltd, worked with ACEteK to implement SAP Business One. Since implementation, Vishelectric has quickly become one of the leading players in the lighting industry in East and Central Africa.

Objectives

- Vishelectric had outgrown their locally created programs.
- New software was needed that could work seamlessly across all branches.

Why SAP and ACEteK

- SAP Business One was completely flexible and enabled Vishelectric to see branch specific performance.
- SAP Business One could grow with the business without the need to migrate to new programs.
- ACEteK was quick to provide the service that Vishelectric required.

Benefits

- Since implementation, Vishelectric's inventory, sales and stock control has improved.

- Branches are now seamlessly connected, which allows for faster decision making.
- Order numbers can be easily tracked.
- All operations are now more efficient saving both time and effort.
- Accurate reports on stock, profitability and sales are now available.
- Business processes can be tracked at any time.
