SAP BUSINESS ONE - THE KEY TO REAL BUSINESS GROWTH

Commercial real estate company, Yare Centre Limited, worked with ACEteK to implement SAP Business One into their rapidly growing business. Now with automation of processes and total transparency, Yare Centre Limited's efficiency has improved across all departments.

Objectives

- Yare Centre Limited's previous software was slow and required high volumes of manual data entry.
- There was a lack of employee management and time management.
- New software was required that could improve efficiency and offer better transparency of operations.

Why SAP and ACEteK

- SAP Business One could help operations in terms of revenue collection and efficiency.
- ACEteK provided invaluable advice to improve operations and efficiencies in revenue collection and human resources.

Benefits

- Since implementation, all process are now automated, saving time.
- Yare Centre Limited's employee management and time

management has become more efficient.

- Revenue collection has improved, as more collections are possible on any given day.
- Alerts can be set on outstanding payments, allowing the team to effectively collect outstanding balances.
- Real-time data can be sent to headquarters, keeping management in the loop at all times.
